

TEMPORARY SLOW ORDER FORM

Completion of this form is required at the time of an In Service Inspection. In the event that track and signals portions of the In Service are completed at different times then this form shall be filled out at the first and then continued at the second. Once started this form must be included with the In Service certificate, inspection reports and deficiency reports. All TSO's associated with this form will not be removed until all responsible Metrolinx employees have signed and confirmed completion of all required work is completed. On the In Service Certificate this form must be noted on the Remaining Restrictions section.
